## BRIEF JOB DESCRIPTION

### DUTIES INCLUDING BUT NOT LIMITED TO:

Assisting in medical and surgical cases (small animal and exotics)  
Stock ordering  
Reception duties (shared amongst all staff)  
Lab work

As we are a family run practice we like to think that our family extends to staff and clients alike. Our aim is to create a **compassionate, warm atmosphere** where clients feel comfortable and have confidence in all staff members. This is exactly why we do not have designated receptionists - everyone gets to know the clients. We also make no apologies for **expecting the best** for patients and clients alike.

We are looking for someone special. An optimistic, proactive, positive person. Your **personality** and **what drives and excites you** are extremely important to us, therefore, we welcome newly qualified Registered Veterinary Nurses
